Abhinav Sikharam and Joshua Kelly take home top prizes for JagStart 2020

By: Chester Bryant
Wednesday, July 01, 2020

After months of students working hard and polishing their projects, the JagStart judges had come to a consensus, and the crowd had voted.

The JagStart competition is an annual event where students from IUPUI showcase product ideas, business ventures, or answers to social problems in an elevator pitch style competition. If students win, their ideas can become a reality.

Abhinav Sikharam came one step closer to seeing his project, [Project Ma](#), become a reality when he became the winner of JagStart 2020.

Abhinav Sikharam's Project Ma won the grand prize at JagStart 2020.
